

Hybrid Monsters

Our Monster Team:

1. _____
2. _____
3. _____

Your teacher or chaperone will direct you to a work of art. With two other students, take turns adding parts of animals or humans you see in this a work of art to create your own unique monster. After you make your drawing, make sure some lines extend into the next section and then fold the paper so your partners can't see your drawing. **When all three of you are finished, unfold to reveal your monster!**
