Language: Collection material is in English.

Abstract: Series IV contains the bulk of Shulman's archive. Represented here are more than 5,000 jobs that Shulman did not separate into smaller series based on architect or project. Most of the following descriptions include the names of artists, landscape designers or interior designers, but not builders, contractors or other clients. Photographic materials primarily date from 1936 through 1997; materials dating from 1997 through 2009 are mainly miscellaneous papers, ephemera, and clippings. Due to its size, Series IV is described in a separate finding aid. The main finding aid for the Julius Shulman Photography Archive is available here: http://hdl.handle.net/10020/cifa2004r10.
